

Proposed Merger Announcement

We are pleased to announce that the Boards of Directors of Limerick & District Credit Union and Bruff Credit Union are proposing a merger of our two credit unions.

Both credit unions share a strong commitment to serving their members and local communities. The Boards believe that bringing our credit unions together would strengthen our ability to invest in services, enhance the range of services available to members, support future growth and continue making a positive contribution to the communities we serve.

The proposed merger would combine the strengths, experience and resources of both credit unions while maintaining our focus on delivering excellent service to members. Our shared objective is to create a stronger credit union that is well positioned to meet the evolving needs of current and future generations of members.

This announcement reflects our commitment to openness and transparency throughout the process. Members will be kept fully informed and, in due course, will receive detailed information on the proposal, including the financial position of both credit unions and the benefits of the proposed merger for members.

The proposed merger will require the approval of members and the Central Bank of Ireland.

In the meantime, it remains business as usual. Members can continue to access all services as normal, and there will be no impact on day-to-day operations during the process.

Issued jointly by the Boards of Directors of Limerick & District Credit Union and Bruff Credit Union.
